Introduction to DUT

**World-class University**

**Project 985**

**Project 211**

Dalian University of Technology (DUT) is a national key university administrated directly under the Ministry of Education of China, which is also sponsored by Project 211 and Project 985. In September 2017, approved by the State Council, DUT was selected into the “World-class University Construction Plan”, category A.

The disciplines of engineering and chemistry of DUT were selected into the “world-class discipline construction list”. Well-developed disciplines in DUT are provided with rich resources and have strong research backgrounds. Currently, 9 disciplines of DUT are selected into the top 1% in ESI international disciplines ranking, of which engineering, chemistry and materials science entered world top 1 ‰; 12 disciplines are selected into Top 500 in QS world discipline ranking, the number of disciplines ranking the 18th in all universities in China.

DUT is doing actively in academic exchange with other science and technology organizations, both in domestic and abroad. DUT has signed academic agreements with more than 207 higher education institutions and scientific research in more than 29 different countries and regions.

MTCSOL @ DUT

## Introduction

This program is characterized by well-designed curriculum, outstanding faculty, strong academic atmosphere, diverse language activities and social interaction.

MTCOSL is designed to cultivate the high-quality top talents with a global vision, interdisciplinary knowledge and practical abilities, who know about China's national condition and culture, have Chinese knowledge and skills in teaching, and also have good skills for cultural/cross-cultural communication.

## Program Objectives

- To have good professional quality and ethics.
  - To have professional knowledge, and inter-cultural communication skills, with high Chinese cultural awareness.
  - To have proficiency in teaching Chinese as a second language. To speak a foreign language fluently for teaching and communicating, and to be skilled at teaching via modern educational technology.
- 
- To be able to effectively manage, organize and coordinate projects of international cultural communication, and to assist general academic work in overseas institutions like Chinese Studies Centers.
  - To be able to serve the local economic development and to engage in relevant work on foreign language and culture communication.
  - To cultivate high-level local Chinese teachers for different language countries.

## Curriculum Description

### Taught Component

**Specialized courses:** Chinese as a Second Language Teaching, Modern Chinese Language Studies, Second Language Acquisition, Case Study of Chinese Language Classroom Teaching, Cross-cultural Communication, Teaching of Chinese Language Element, Error Analysis in Acquisition of Chinese Language, Cognitive Linguistics, Chinese Literary Classics and Chinese Splendid Traditional Culture, etc.

**Public compulsory and elective courses:** History of Chinese Science and Technology, Basic Chinese Language, as well as the Brief Introduction of Chinese Culture.

More than half of the core courses are taught in English or in both English and Chinese.

### Professional Practice

This program emphasizes both basic theoretical learning and practical application. The cooperation and communication relations have been established with many universities and institutes around the world, such as partner universities, Confucius Institute at Belarusian State University, Confucius Classroom, etc. All international students of this program can go to the practice platform at home and abroad to teach Chinese as a foreign language as well as to promote Chinese culture and customs.

## Learning Modality and Duration

### Learning Modality

Full-time on-campus study.  
The curriculum mode is courses study,
