About Ocean University of China

Ocean University of China (OUC) was founded in 1924. It is a key comprehensive university under the direct administration of the Chinese Ministry of Education, with strengths in oceanography and fisheries and a complete range of disciplines. It is also one of the key universities in the country's "Project 985" and "Project 211". In September 2017, it was included in Class A of the country's plan of building "Double First Class Universities". OUC has three campuses, namely Laoshan, Yushan and Fushan, occupying 160 hectares. The new campus on Qingdao's west coast is under construction. The university has 21 colleges and a teaching center of fundamental courses.

OUC has a total of 27,800 full-time students, including over 15,900 undergraduate students, 9,100 master's students and 2,010 doctoral students. The university has more than 1,000 students from more than 80 countries.

OUC is the host institution of Chinese Government Scholarship, Confucius Institute Scholarship, Marine Scholarship of China, Credit Student Scholarship for China-US Humanities Exchange, China-Europe Credit Scholarship and Qingdao Municipal Government Scholarship for international students in China. It also offers the OUC

President Scholarship for international students.

Nine disciplines (fields) of the university are ranked among the top 1% of ESI global research institutions, including Earth Science, Botany and Zoology, Engineering Technology, Chemistry, Materials Science, Agriculture, Biology and Biochemistry, Environmental Science and Ecology, and Pharmacology and Toxicology.

OUC is known as one of the "most beautiful campuses in China". The campus of OUC, together with the clear blue sky, tall trees and European-style buildings, form a wonderland with the most beautiful sceneries.

Ocean University of China passed the first batch of national quality certification for studying in China in 2016.

QINGDAO CHINA

Qingdao • China

Qingdao, located on the southeast coast of Shandong peninsula and bordering the Yellow Sea, is a coastal city with beautiful scenery, pleasant climate and fresh air. Red tiles, green trees, blue sea and azure sky reflect Qingdao's beauty. Red reefs, gentle waves, colorful sails and golden beaches constitute its beautiful coastline. Qingdao is one of the first open coastal cities in China, the economic center of Shandong Province and an internationally famous port city. Qingdao is positioned as "the main nodal city of "the New Eurasia Land Bridge Economic Corridor" and "the Strategic Fulcrum of Maritime Cooperation", leaving countless "Qingdao marks" on the "Belt and Road Initiative".

International students at OUC

NATASHA, Indonesian,
Bachelor of Business Administration

My name is Natasha. I'm from Indonesia. I study Business Administration at Ocean University of China. It has been three years since I first enrolled here. Laoshan campus is very beautiful. In spring time, my friends and I like to go to the Cherry Blossoms Street and take lots of pictures with the blooming cherry blossoms. Studying at OUC has been an interesting experience for me. I get to study with other foreigner friends and have been taught by Chinese teachers. It was quite a fun learning experience for me. I made some Chinese friends on campus and learned Chinese customs. We also celebrated Chinese festivals together. I tried delicious food at the campus canteen too! My favorite is Hainan rice with chicken cutlet.

SAGAUKE, Zimbabwean,
Bachelor of Chinese Language

Being an international student at OUC has been nothing short of an adventure, a journey of growth and definitely an amazing learning experience. As an international student, I have had many opportunities to participate in various school activities, giving me the chance to interact not only with Chinese students but also with students from many different parts of the world. This has helped me fully experience the Chinese culture. As a Chinese Language major, it has also helped improve my language skills through communication with Chinese students and the local people of Qingdao.

AOUSTIN French,Chinese International Business Student

The friendly relationship between China and France allows me to study international business at OUC as an exchange student, which not only enables me to learn a lot of knowledge but also allows me to visit the great rivers and mountains of China. After I came to Qingdao, I learned more about the local customs and traditional culture of China. Everything here filled us with curiosity and passion. I am very grateful to the University of Western Brittany for giving me such an opportunity.

Life at OUC is coming to an end. Life in Qingdao in the past 8 months is a precious time in my life, and it is also an unforgettable experience. Before I came to China, I was a little worried about whether I could learn Chinese well and communicate with my classmates. But I don't have to worry at all, because many kind teachers and friends help me. So I got more and more used to the life here and found it interesting. My major is Chinese studies, and learning Chinese in China is more helpful for me to improve my Chinese than learning it in Korea. Also, it is helpful for me to experience the life of Chinese people and understand Chinese culture. So I decided to study in China. After coming to China, I went to Chinese classes every day and listened intently, so that I could get good grades and pass the HSK test. I think we must learn well before doing anything. Besides, at OUC, there are not only activities to communicate with Chinese people, but also activities to communicate with friends from many countries. This opportunity is an important experience that can be a turning point in our lives. Every minute of my life in Qingdao is meaningful. Come to OUC everyone. I hope you will also come to OUC to experience the Chinese life and communicate with the Chinese people! Experience can make one grow and make one happy!

Un Ho,South Korean, Chinese Language students

WAJID,Pakistani, PhD candidate in Marine Geology

Working together with a supervisor and a team plays a vital role in achieving a common goal in sciences and I found my supervisor and teammates highly motivating, extremely helpful and very cooperative. Although I faced many challenges during my research in Marine geology (to develop tectonic models for the South China Sea), I have access to the latest technology and I am surrounded by the right people. The study environment has always stimulated me to develop new skills and to take my research in the right direction. Which must be one of the reasons why this university is well reputed in China.

What is more, the everyday life at OUC is amazing. The university is beautifully situated and houses people from many nationalities. The living environment offers all the needed facilities and has a wide range of possibilities for exercise. The people I have met here are very loving and helpful and contribute to making this place feel like home. By organizing activities like cultural festivals, sports competitions and New Year celebration, the university stimulate the students to interact with and learn from each other.

Degree Programs

I. Undergraduate programs

Eligibility: high school degree, 16–50 years old, in good health.

Deadline for Application: June 10th each year

Date of Enrollment: In early September of each year. The specific time shall be subject to the letter of admission.

Basic years of study: 4 years

(i) Chinese–taught Undergraduate Programs

Most of the Chinese–taught undergraduate majors are open to international students. Applicants can only fill in one major and cannot change their majors after being admitted.

The university offers undergraduate courses in Chinese language and literature for international students.

See the attached table for details of the current undergraduate programs.

(ii) English–taught Undergraduate Programs

The university offers English–taught majors in International Economics and Trade, Business Administration, Computer Science and Technology.

Haide College of OUC offers three bilingual courses in Chinese and English: Biotechnology, Food Science and Engineering, Mathematics and Applied Mathematics.

II. Graduate programs

Eligibility: bachelor degree (for master' s degree) or master' s degree (for doctoral degree) or equivalent, 18–50 years old, in good health.

Deadline for Application: June 10th each year

Date of Enrollment: In late August or early September each year. The specific time shall be subject to the letter of admission .

Basic years of study: 2–3 years for master' s programs. 4 years for doctoral programs.

(i) Chinese–taught Graduate Programs

Please refer to the attached table for the current programs for master's and doctor' s degrees.

(ii) English–taught Graduate Programs

The university offers three English–taught master' s degree programs, including International Business, Environmental and Resource Protection Law, and China Studies. Other master's programs may be taught in English with the consent of the supervisor.

Most doctoral programs offered by the university can be taught in English.

Application Procedures

1. To apply

Please send a clear scanned copy of the required materials to the mailbox of the Admissions Office (iec@ouc.edu.cn) during the opening hours for registration. If you have any questions during the registration, please contact us by email or phone.

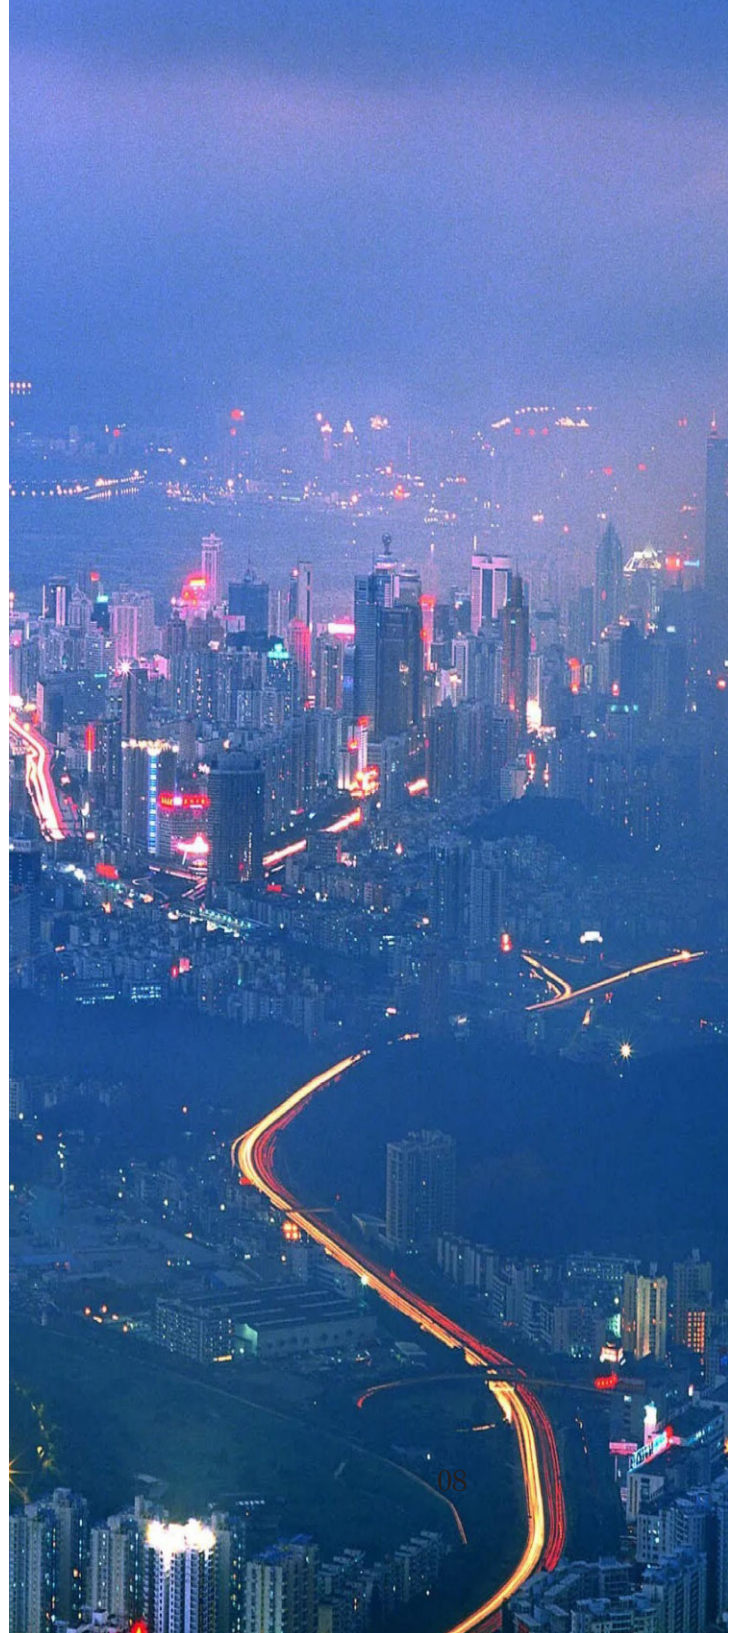

2. Comprehensive assessment

(1) Material review: For those who submit the application and supporting documents on time, and the information of the application materials is true and complete, the school will organize an expert panel to review the application.

(2) Examination and assessment: Applicants who have passed the material review will be assessed according to the actual situation, and the time and method of the assessment will be notified later.

3. Admissions

The admissions of international students for degree programs at Ocean University of China is based on a comprehensive assessment of the applicant's academic performance, other qualification documents and examination results. Applicants for a graduate degree program should also be considered on the basis of academic and professional qualifications.

Non-Degree Programs

I. Language learning

(i) Long-term Chinese language program

The Chinese language program aims at strengthening students' listening, speaking, reading and writing skills. According to the candidates' levels of Chinese, introductory classes (Class A, Class B, Class B+), intermediate classes (Class C, Class D) and advanced classes (Class E) are offered. Each semester, 4–5 courses are offered, which mainly focus on intensive reading, speaking, listening, reading, writing and newspaper reading. A semester consists of 18 weeks. On weekdays, there are four classes in the morning, and one or two classes of Chinese culture in the afternoon, calligraphy, Tai Chi and Peking Opera, to name a few.

Eligibility: 16 ~ 60 years old, in good health.

Application period: September to the end of December of the year before for spring enrollment; March to early July for fall enrollment.

Date of Enrollment: late February or early March for spring enrollment; late August or early September for fall enrollment. The specific time shall be subject to the Letter of admission .

Duration: One semester to two academic years.

(ii) Short-term Chinese language program (summer/winter breaks)

It is mainly aimed at students who do not have a basic knowledge of Chinese or those who need to consolidate and improve their Chinese level in a short time. Students in this program have the opportunity to lay a good foundation of language while experiencing Chinese culture. Summer Chinese courses include speaking, listening, intensive reading, audio-visual classes and rich cultural experience courses, such as paper cutting, Tai Chi, tea culture, city sightseeing and beer museum visit. Summer classes accept individual and group registration. Winter classes are customized . Only group registration is accepted.

Eligibility: Under 60 years old, in good health. Students under the age of 16 must be accompanied by a guardian.

Deadline for Application: the end of June for summer classes; the end of December for winter classes.

Date of Enrollment: the middle of July for summer classes; late December or early January for winter classes.

Duration: 4 weeks (summer classes), group project according to specific agreement.

Non-Degree Programs

II. Professional study

Professional students are divided into General and Advanced students.

Duration: One semester to one academic year

Application qualification, application time, admission time, submission of materials and fee:

General program (refer to the attached table) refer to the application requirements of undergraduate degree;

Advanced program (refer to the attached table) refers to the requirements of master's degree.

The university has three non-degree professional training programs, namely the International Chinese Business program, Advanced Business Management Training program, and Environmental Protection and Engineering program. Classes are offered when more than 15 students are enrolled.

(i) International Chinese Business program (taught in English)

To meet the needs of international students to learn more about China's economy and business circumstances, the International Chinese Business program, established in 1997, is the first credit course taught in English at the university. This program aims to make international students understand China's economic policies in a short time and improve their practical ability to use Chinese in business activities through basic Chinese, cross-cultural management, business management and other courses.

Eligibility: Undergraduate or graduate student, aged 18 to 50, in good health.

Application period: September to December of the previous year for spring enrollment; March to June for fall enrollment

Date of Enrollment: Early March for spring enrollment; early September for fall enrollment. The specific date shall be subject to the Letter of admission .

Duration: One semester (16 weeks), twice a year (spring and fall semesters).

Course offered:

Courses	Class hours/week	Credits
China & The World Economy	2	6
Business Management	2	6
Marketing	2	8
China's Investment	2	2
Cross-Cultural Management (Chinese Elements and Perspectives)	2	2
Basic Chinese	4	2
Wushu & Tai Chi *	2	
Calligraphy & Chinese Painting *	2	
Enterprise tour	2	

Note: Those marked * are optional courses. The course schedule may change due to the actual situation.

Non-Degree Programs

(ii) Advanced Business Management Training program (taught in English)

The Advanced Business Management Training Program aims to teach students who are engaged in business management the knowledge and business skills required for their work, cultivate their global vision, and improve their management capabilities at the strategic level. This program aims to enhance students' understanding of cross-cultural and multi-functional business operations and processes, develop industry leaders with global awareness, equip students with the knowledge, skills and attitudes needed to make decisions in complex environments, and promote sustainable development of management practices.

Eligibility: bachelor's degree, 18–50 years old, in good health.

Application period: September to the end of December each year.

Date of Enrollment: March of the following year. The specific time shall be subject to the Letter of admission .

Duration: One semester (8-week course + 8-week enterprise research)

Course offering:

Courses	Class hours/week	Credits
China's Capital Market	3	1
China Marketing	3	1
China & The World Economy	3	1
Chinese Culture	3	1
Business Chinese	6	1
Enterprise Tour	3	
Lecture *	3	

Note: Those marked * are optional courses. The course schedule may change due to the actual situation.

(iii) Environmental Protection and Engineering program (taught in English)

Environmental Protection and Engineering Training program aims to help students obtain a good understanding for science and environmental protection, master the basic theories and the basic theory of environmental engineering, be able to study and solve complex environmental engineering problems with scientific methods based on environmental engineering discipline principles, understand and master Environmental Engineering Management principles and economic decision-making methods, which can be applied in a multi-disciplinary environment to manage the entire process of environmental engineering projects; foster the consciousness of independent learning and lifelong learning, pay attention to the development trends of environmental engineering; be able to develop according to the needs of the industry and personal career development, acquire new knowledge and new skills independently, and adapt to the development of society and industry.

Eligibility: Undergraduate or graduate students, or technicians in related industries, 18–50 years old, in good health.

Deadline for Application: June 20th each year

Date of Enrollment: Early September of each year. The specific time shall be subject to the letter of admission .

Duration: One academic year

Course offered:		
First semester		
Courses	Class hours/week	Credits
Environmental Science	2	2
Ecology	2	2
Environmental Biology	2	2
Chinese Language	2	2
Second semester		
Courses	Class hours/week	Credits
Environmental Engineering	2	2
Theory and Technique of Restoration	2	2
Water Pollution and Water Treatment	2	2
Chinese Language	2	2
Overview of China	2	2

Note: The course schedule may change according to the actual situation.

Non-Degree Programs

Application Procedures

1. Online application:

Please send a clear scanned copy of the required materials to the mailbox of the Admissions Office (iec@ouc.edu.cn) during the open hours of registration. If you have any questions during the registration process, please contact us by email or phone.

2. Admissions:

Admissions of non-degree international students to the Ocean University of China is based on comprehensive assessment of the applicant's academic performance and other qualification documents.

Application Materials and Fees

Environmental Protection and Engineering Program		✓	✓	✓	✓	✓	✓	✓	TOEFL ≥ 80, IELTS ≥ 5.5, or equivalent English proficiency certificate

Notes:

- 1) Degree students should provide a notarized certificate of the highest degree, in Chinese or English. Transcripts in languages other than Chinese and English must be accompanied by notarized Chinese or English translations.
- 2) Non-degree students need to provide the certificate of highest degree. Transcripts in languages other than Chinese and English should be accompanied by a Chinese or English translation.
- 3) If the applicant is a registered student, he/she should also submit his/her study certificate or transfer certificate issued by his/her school.
- 4) Resume should be translated into Chinese or English.
- 5) Those with work experience should provide work certificate.
- 6) For programs that require language proficiency, proof of language proficiency or proof of completion of high school or college courses in the relevant language is required.
- 7) Degree students must provide a bank statement of no less than 40,000 RMB, and non-degree students of one academic year or more shall provide a bank statement of no less than 20,000 RMB.
- 8) Incomplete application will not be accepted. If necessary, we will request additional materials from applicants.
- 9) Proof of proficiency in Chinese or English is required to apply for bilingual courses offered by Haide College.

Application Materials and Fees

III. Tuition and Registration Fee

1. Tuition and registration fee for degree students

Student Type	Teaching Language	Major	Tuition (RMB/year)	Application Fee (RMB)
Undergraduate Student	Chinese	All majors	18,000	400
	English	International Economics and Trade	23,000	
		Business Administration	23,000	
		Computer Science and Technology	23,000	
Graduate Student	Chinese	All majors	Humanities Subjects: 20,500 Science Subjects: 23,500	
	English	China Studies	20,500	
		International Business	25,000	
		Environment and Resource Protection Law	25,000	
Doctoral Student	Chinese	All majors	31,000	
	English	All majors	31,000	

2. Tuition and registration fee for non-degree students

Student Category	Teaching Language	Major	Tuition (RMB)	Application Fee (RMB)
Chinese Language Student	Chinese	Long-term Chinese Language	7,000/semester 5,700/3 months 4,500/2 months 3,300/a month	400
		Short-term Chinese Language - summer classes	4,000 (Including Chinese cultural experience)	200
		Short-term Chinese Language - winter classes	According to the agreement	200
Professional Student	Chinese/English	General	Undergraduate fees standard	400
	Chinese/English	Advanced	Graduate fees standard	400
	English	International Chinese Business	15,000/semester	400

IV. Payment

Please remit the application fee and tuition to Ocean University of China after receiving the letter of admission . The account information is as follows:

Account name: OCEAN UNIVERSITY OF CHINA

Account number: 226007730053

Bank name: BANK OF CHINA SHANDONG BRANCH QINGDAO SHINAN No.2 SUB-BRANCH

Bank address: No.100, HONGKONG MIDDLE ROAD, SHINAN DISTRICT, QINGDAO, CHINA

Swift Code: BKCHCNBJ50A

Notes:

1. "Applicant's name + registration fee + tuition" must be filled in the bank remittance receipt and should be handed in during registration.
2. Accommodation fees and insurance should be paid upon arrival.
3. Fees for teaching materials, laboratory experiments, internships and professional visits will be charged according to relevant standards.

Accommodation, Visa and Insurance

I. Accommodation and fee

Yushan Campus (5 Yushan Road), Jinhai Court, Tel: 0086-532-82032888;

International Student Apartment, Building 21, 238 Songling Road, Laoshan Campus, Tel: 0086-532-66786288.

Students can check in at the international student apartment on the day of registration. They should pay the accommodation fee according to the semester of checking in. Government-funded students and self-funded students should live in the designated apartment according to the arrangement of the school. Free accommodation is available during holidays. Self-funded non-degree students should pay during holidays (accommodation fee is not refundable if students check in or check out during the breaks). When checking in, please read and sign the "Ocean University of China International Student Accommodation Agreement" and "Accommodation Registration Form" carefully.

According to the Chinese law, international students must register for temporary accommodation at foreign-related hotels, apartments that are approved by the Public Security Bureau or local police station within 24 hours of arriving in a Chinese city, otherwise they will be punished. Please keep the registration form of temporary residence for use when applying for a residence permit visa.

For internet services, please refer to the website: <http://eweb.ouc.edu.cn/4221/list.htm>, about 30 RMB/month.

Yushan Campus International Student Apartment – Jinhai Court and Yin Hai Court Add: 5 Yushan Road, Shinan District, Qingdao Tel: +86-532-82032888				
Room Type	Accommodation standard (excluding summer and winter breaks)	Winter Break	Summer Break	Main room facilities

Laoshan Campus International Student Apartment–Building 20 and 21 Add: North Gate of Campus, 238 Songling Road, Laoshan District, Qingdao Tel: +86-532-66786288				
Room Type	Accommodation standard (excluding summer and winter breaks)	Winter Break	Summer Break	Facilities
Double Room	5,500 RMB/bed /semester	2,000 RMB/bed	2,000 RMB/bed	Air conditioner, bathroom, water heater, desk, chair, wardrobe

II. Visa

1. For international students applying for admission, please apply for The X1 or X2 visa at the Chinese Embassy or consulate with the letter of admission issued by Ocean University of China and Visa Application form for Study in China (Form JW202 or 201).
 2. According to the Chinese law, international students who come or return to China with a valid visa must register for temporary residence within 24 hours of their arrival in China. Otherwise, a new visa cannot be issued.
 3. International students entering the country with an X1 visa must complete the registration before they can renew their study residence permit visa.
 4. To replace the residence permit visa with an X1 visa, a qualified "Foreigner Physical Examination Record" issued by the Health and Quarantine Department of Shandong Province (Qingdao) must be submitted. Holders of the "Foreigner Physical Examination Record" of their own countries must be certified and qualified by the Health and Quarantine Department designated by Shandong (Qingdao).
 5. The validity period of the residence permit visa shall be subject to the final validity period issued by the Exit and Entry Administration of China.
 6. Please visit the website of the School of International Education of Ocean University of China or consult the Student Affairs Office of the school for visa and residence permit application materials. Tel: +86-532-66786581, +86-532-66786503.
-

Accommodation, Visa and Insurance

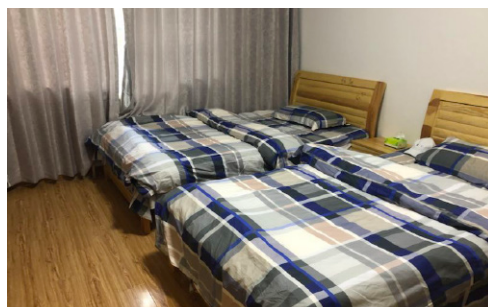

III. Insurance

Students should purchase insurance when they arrive at the school for registration. The fee scale is as follows:

1. For students who study for one semester or more, the insurance premium is 800 RMB/year/person.
2. For students who study for 1 to 6 months, the insurance premium is 400 RMB/semester/person.
3. For students who study for less than 1 month, the insurance premium is 200 RMB/person.

Note: The Ministry of Education of China stipulates that international students in China must purchase medical insurance in China. Students are required to provide a copy of their passport and purchase medical insurance at the registration desk on the day of registration. For those who do not purchase the required medical insurance, the school will not process the registration procedures.
